Mining

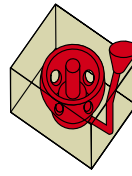

Gerdau is one of the main producers of forgings and castings for the mining sector. Our range of products features main shafts, drum shafts, roll crushers for oil sands, primary gyratory and secondary crushers, cast lips, etc. Our pieces can be found in some of the most important mines worldwide.

Of special importance is the fact that we can offer sets of finished forgings and castings pieces, and run and stack tests of our sets. Furthermore, we have experience in collaboration with our customers in the design of products.

Forging pieces

Casting pieces

Main shaft gyratory crusher

Gyratory crusher (stack test)

Roll crusher with shrunken shaft (oil sands)

Main frame secondary crusher

Drum shaft

Shell

Apron feeder shaft

Mantle head core shaft

Spider
